Speakers will include:

Pete Levett, Practitioner

National Industrial Symbiosis Programme

NISP will host a lively and interactive session that aims to deliver financial and environmental benefits by matching resources between businesses including waste, logistics, water, and expertise.

**Ian Manley, Strategy Implementation Officer,
Waste Management, Dorset County Council**

Ian is the point of contact in Dorset for help and advice when dealing with waste. He will update on services currently available - including new facilities businesses may not be aware of.

**John Caithness, Business Tax Director
Princecroft Willis LLP**

John will present a review of some green tax measures and look at practical ways for businesses to reduce the tax burden.

This is also an excellent business to business networking opportunity. Come along with information about the waste resources you have available and plenty of business cards.
